

# SMALL BUSINESS = BIG TARGET FOR CYBERATTACKS

The average cyberattack costs SMBs \$2,000,000. What would that do to your business?

OF ATTACKS HAPPEN AFTER HOURS OR DURING THE WEEKEND

OF CYBERATTACKS TARGET SMALL AND MID-SIZED BUSINESSES

OF SMALL BUSINESSES FACE RANSOMWARE AND ADVANCED THREATS

## HOW WE CAN HELP:

### Tailored Cybersecurity Solutions:

- Our MSP services offer tailored solutions to address your unique vulnerabilities.

### Affordable Defense Against Losses:

- Resource constraints shouldn't compromise your security. Our affordable plans offer world-class protection, shielding your business from potential losses.

### Focus on Your Business, We'll Handle the Rest:

- Small businesses often lack the resources to manage cybersecurity effectively. Let our experts take care of it.

### 24/7 365 Protection For Your Business:

- Cyber attacks don't rest and neither do we. We make sure the technology side of your business is secure around the clock.
